

## Data regarding Gujarat Election 2022

### We can provide the following Data:

1. **Booth wise Demography Data:** We follow the methodology to get this data. We analysed the complete voter list. Muslim names can be differentiated from Hindu names. We identify the Muslim voters by their names. For the Hindu Names, we do a Surname analysis. A real life sample is given here. We can provide the complete Gujarat data. If we provide to one client, we don't give it to anyone else. The data will be minimum 95% accurate.
